### Meet the Professor

---

#### **Prof. J. Grant Thomson: my experiences in plastic surgery**

---

Received: 19 October 2016; Accepted: 21 November 2016; Published: 23 December 2016.

doi: 10.21037/jxym.2016.12.17

---

The ‘International Seminar for Bone and Joint’ and the first ‘Xiangya Bone Symposium’, which is a branch of the 2016 ‘Xiangya Medicine Forum’ are jointly organized by the Department of Orthopedics and Sport Medicine of the Xiangya Hospital, Central South University. During the meeting, Prof. Thomson had a very interesting presentation entitled “The Extended Lateral Arm Flap”. We were honored to invite Prof. Grant Thomson to share his experience in plastic surgery with us during a brief interview following his presentation.

Prof. Grant Thomson is the Director of the Yale University Hand and Comprehensive Microsurgery Center, Professor of Yale University School of Medicine and Adjunct Clinical Assistant Professor at Quinnipiac College, Connecticut, United States. Prof. Thomson earned his medical degree from McGill University in 1983. Before joining the section of plastic surgery at Yale University, he completed hand and microsurgery fellowship at Washington University Medical Center in St. Louis, Missouri.

Prof. Thomson’s special interests include endoscopic carpal tunnel release, trigger finger treatment, Dupuytren’s contracture, arthritic hand reconstruction, brachial plexus reconstruction, peripheral nerve surgery, occupational disorders of the upper extremity, and trauma-related pain. His clinical practice also includes reconstructive microsurgery. He uses his experience to reach across borders to children and adults in developing countries.

## 10. Special column: Case Reports in Thoracic Surgery

**Column Chairman:  
Fabio Davoli, MD, PhD**

Department of Thoracic Surgery - AUSL Romagna,  
S.Maria delle Croci Hospital,  
Ravenna, Italy

It is our privilege to introduce a novel special section of the *Journal of Xiangya Medicine* (JXYM) entitled “*Case Reports in Thoracic Surgery*”. The aim of this section is to promote the publication of outstanding case reports in all fields of thoracic surgery, enhancing the discussion between surgeons and affiliated specialists. Specifically, we are interested in those submissions that describe the experience with a diagnostic conundrum or a challenging surgical procedure, and clearly develop a valuable teaching point.

## 11. Upcoming Focused Issues and Guest Editors

### *Carpal tunnel syndrome*

**Grant Thomson, MD, MSc**

Yale University School of Medicine,  
New Haven, USA

## 11. Upcoming Focused Issues and Guest Editors

### *Perforator flap*

**Geoffrey Hallock, MD**

Sacred Heart Hospital,  
Allentown, USA
